About Founder **Dream Guide**

Founder of Dream Guide
Mayuko Katsuki
Industrial Engineering Student at ITS

I grew up between Japan and Indonesia. My mother is Japanese, I studied in Japan until junior high school, and I earned a full score of 180/180 on the JLPT N1. Because I understand both countries, I have seen a gap that feels deeply personal to me.

In Japan, companies are searching for skilled, motivated professionals. In Indonesia, I see many bright diploma and university graduates working hard, carrying big dreams, yet struggling to find opportunities that truly reflect their ability and potential. I kept asking myself: why should talented people have to settle for less, when there may be a bigger future waiting for them?

Dream Guide was created to become a bridge. I want to help talented professionals see Japan not simply as a place to work, but as a place to build a respected, stable, and meaningful career, one with room for growth, fair compensation, strong benefits, and even global opportunities.

I also understand that university graduates and working professionals are busy. They have jobs, classes, responsibilities, and people depending on them. That is why Dream Guide is built to be flexible and online: so you can learn Japanese without putting your life on pause. My hope is simple: to help more capable people unlock opportunities they may never have imagined, and to make sure their talent has a chance to be seen.

Why You Should Learn Japanese

Japan Offers Many Jobs, Mostly for Native Japanese Speakers

Japan offers many opportunities for foreign professionals, especially in technical and technology-related fields.
However, Japanese communication skills are essential for building trust and succeeding in the workplace.

The Myth About Japanese Companies

"Big Company or Nothing"? That Assumption Is Costing You Opportunities

The Myth

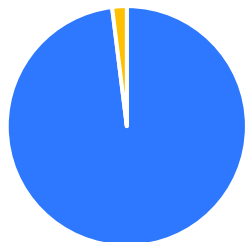

Big company = better career.

The Truth

SMEs are the backbone of Japan's economy and a major pathway for career growth

The Facts

Proportion of Company Types in Japan

■ SMEs ■ Large Corp.

99.7% of All Companies in Japan are SMEs

Proportion of Company Types in Japan

■ Work at an SME ■ Work at a Large Corp.

69.7% of All Employees in Japan Work at SMEs

...But Why?

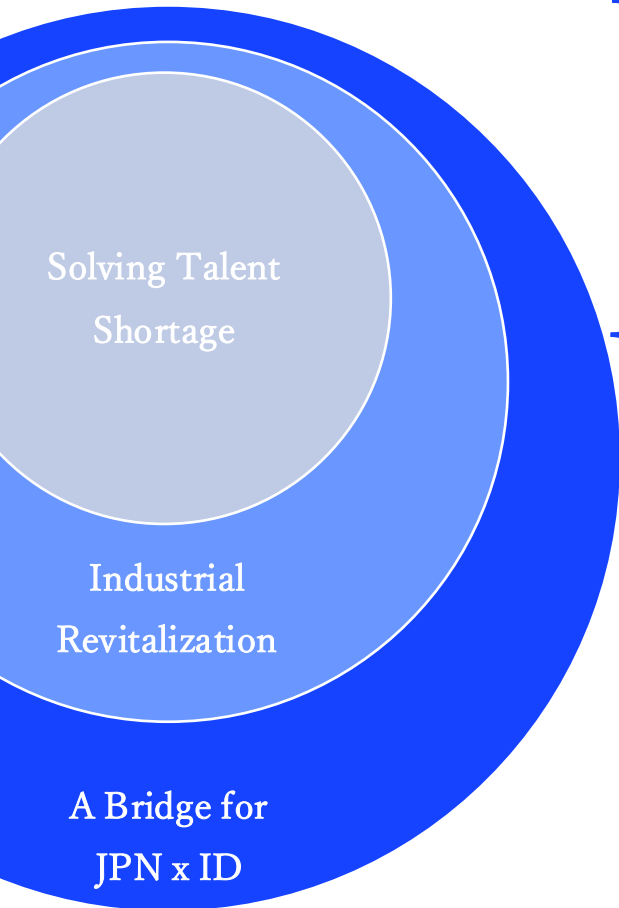

Japan's economy is built differently. Local companies support local industries, not the other way around. Many SMEs are:

- Precision engineering specialists
- Parts and materials suppliers for major manufacturers
- Robotics and automation companies
- Businesses that have operated for decades, some over 100 years

Compare Your Careers!

	Large Company	SME
Promotion	Usually slower	Often faster
Relationship with Management	Many layers	Closer to decision-makers
Individual Impact	Small contribution in a huge organization	Your work directly influences company growth
Learning Opportunity	More specialized role	Broader responsibilities
Career Growth	Competitive	High visibility
Innovation	More structured	More flexibility

The Future Dream Guide Wants to Create

Dream Guide's Three Visions

First, removing the “wall” of talent shortage

Through Dream Guide, we connect motivated and capable Indonesian talent with Japanese companies, contributing to the solution of Japan's deepening talent shortage.

Creating a future where talent is fulfilled and companies move forward

By solving talent shortages, Japanese companies will be able to regain the capacity to expand their businesses more actively and revitalize industries.

Then, becoming a “bridge” between Japan and Indonesia

Through Dream Guide, Indonesian talent who gains experience in Japan will later bring their knowledge back and become a bridge connecting Japanese companies with Indonesia.

For that reason,
we are here to help you (Indonesian students),
not just to learn Japanese,
but to truly work in Japan.

Our goal is **long-term**, not short-term “just learning Japanese.”

We prepare you with the language, skills, mindset, and opportunities to build your **real future in Japan.**

We walk with you **from learning to career and beyond.**

Your Japan journey starts here. Your future starts now.

Pertanyaan yang Sering Diajukan (FAQ)

Bagaimana jika saya **masih berstatus mahasiswa aktif** dan **belum bisa mencari pekerjaan**, tetapi ingin mengikuti Dream Guide?

Tidak masalah. Fitur **Job Apply & Match** merupakan fasilitas tambahan, sedangkan fokus utama program Dream Guide tetap pembelajaran bahasa Jepang. Meskipun belum dapat melamar pekerjaan, kamu bisa mulai melihat berbagai lowongan untuk mengetahui kemampuan yang perlu ditingkatkan. **Setelah menyelesaikan program, kamu juga dapat masuk ke dalam talent pool Dream Guide untuk memperoleh informasi peluang kerja pada masa mendatang.** Program ini akan membawa peserta hingga tahap awal N3. **Jika ingin melanjutkan hingga N1, kamu dapat mengikuti batch lanjutan yang akan dibuka setelah program ini selesai.** Saat sudah memasuki semester akhir atau siap bekerja, kamu bisa mulai menggunakan fasilitas Job Apply & Match.

Bagaimana jika saya **sudah memahami dasar bahasa Jepang**, tetapi ingin mengikuti les Dream Guide?

Kamu dapat membandingkan materi yang pernah dipelajari dengan buku yang digunakan dalam program ini, yaitu **Minna no Nihongo Shokyuu I dan Shokyuu II**. Silakan berkonsultasi melalui WhatsApp Mayuko di **wa.me/6285706728464** dan jelaskan level serta materi yang sudah kamu kuasai. **Tim Dream Guide akan membantu menentukan kelas dan waktu mulai yang sesuai.** Namun, kami tetap menyarankan untuk mempertimbangkan belajar kembali dari awal. Pengulangan dapat memperkuat fondasi tata bahasa, sekaligus memastikan kamu tidak melewatkan latihan **kaiwa** yang sudah diberikan sejak awal program.

Apakah **kemampuan bahasa Jepang benar-benar penting untuk bekerja di Jepang?**

Ya, terutama untuk pekerjaan yang membutuhkan komunikasi dengan rekan kerja, atasan, klien, atau perusahaan mitra. **Kemampuan teknis saja sering kali belum cukup. Komunikasi bahasa Jepang yang baik membantu mengurangi kesalahpahaman dan membangun kepercayaan** di lingkungan kerja. Karena itu, calon pekerja perlu mempersiapkan kemampuan bahasa Jepang, khususnya kemampuan berkomunikasi secara langsung.

Apakah belajar selama tujuh bulan hingga tahap awal N3 sudah cukup?

Jawabannya bergantung pada tujuanmu. Program tujuh bulan ini dirancang untuk membangun fondasi hingga tahap awal N3 sekaligus melatih **kaiwa** atau percakapan bahasa Jepang. Untuk sejumlah posisi **Gijinkoku**, **sertifikat JLPT bukan satu-satunya pertimbangan. Perusahaan juga dapat menilai kemampuan kandidat dalam menggunakan bahasa Jepang saat berkomunikasi.** Karena itu, kurikulum Dream Guide tidak hanya membahas materi JLPT, tetapi juga memberikan banyak latihan penerapan bahasa dalam percakapan dan situasi sehari-hari. Namun, jika ingin mencapai kemampuan yang lebih tinggi dan lebih lancar, kamu disarankan melanjutkan pembelajaran hingga N2 atau N1. **Program lanjutan akan dibuka setelah kurikulum ini selesai.** Fondasi tata bahasa perlu dipahami dengan sungguh-sungguh karena akan sangat memengaruhi kemampuan mempelajari materi lanjutan dan mengembangkan kemampuan percakapan.
